

## Virtual Print Supply Chain Management Platform for Global Sales & Marketing Teams

HubCast WorldTeam is a robust software platform for managing the global print supply chain. Designed for marketing departments with geographically dispersed field organizations and partners, HubCast WorldTeam allows you to actively manage your brand, controlling the content and quality of marketing tools, while providing field offices and partners with 24/7 access to approved materials. HubCast WorldTeam simplifies and streamlines the workflows associated with managing and procuring print, reducing the time and expense of printing and delivering marketing and sales tools around the world.

WorldTeam gives you the power and flexibility to create unique documents for trade shows, conferences, and training events. Support language requirements. Manage versions. Respond overnight to field requests – all while reducing expenses. HubCast WorldTeam provides an easy-to-use storefront, cloud-based library, a suite of administrative tools for managing documents, usage, and budgets, and simplified supply chain processes for pricing, routing, quality control, printing, and global delivery.

*Simplify worldwide access to press-ready documents*

Control your brand, content, & users.

### WorldTeam Storefront Simplifies Ordering

HubCast WorldTeam simplifies order processing with a simple yet powerful storefront, available to approved users around the world. Its easy-to-use, self-service order processing enables users to order print online in minutes. No emails. No phone calls. No time zones. Employees and channel partners can log into the WorldTeam storefront from anywhere in the world, select a pre-approved file from your document library, specify quantity and delivery destination, and schedule delivery.

You receive a real-time price based on project specifications and the delivery address. Increase or decrease quantity. Change delivery options. HubCast WorldTeam immediately provides an updated price and delivery schedule. From brochures to training manuals, booth graphics and pop-ups to perfect bound books, HubCast WorldTeam saves you money by printing exactly what you need when and where you need it, without the expense of long-distance shipping.

HubCast WorldTeam puts you in control of messages, content and quality by giving you direct control over the entire process and eliminating the need for remote offices to create materials or manage local printers.

## *Administrative Tools Manage Content, Users and Budgets*

HubCast WorldTeam includes all the administrative tools you need to manage your worldwide global print supply chain. You can upload and store print files, create and authenticate users, and manage version control. Its sophisticated rules engine allows you to define users and access to documents. You can track usage by document and user. Monitor print spend. Calculate the reduced costs of shipping, warehousing, and obsolescence.

Collaborate with worldwide offices & partners.

## *Global Print Supply Chain Maximizes Budgets*

HubCast WorldTeam manages every step in your global print supply chain, automating and integrating processes for pricing, routing, quality management, and delivery. With HubCast's extensive global network of Print Service Suppliers, HubCast WorldTeam delivers materials when and where you need them, eliminating the expense of warehousing, obsolescence, and fulfillment. Its innovative routing engine eliminates the cost of long distance shipping by automatically matching your delivery destination with Print Service Providers in HubCast's global network to find the optimal local printer.
