MammoSite - A Major Advance for Women With Breast Cancer

A breast cancer surgeon who has been involved with partial breast radiation and the [MammoSite](#) Radiation Therapy System for more than 10 years, Pamela Benitez, MD, FACS, has seen firsthand the difference the treatment is making for women with breast cancer.

“MammoSite is a great advance for women with breast cancer, allowing them the option of saving the breast,” states

MammoSite^{ml}
Radiation Therapy System

The next generation [MammoSite Multi-Lumen](#) opens up targeted radiation therapy as an option for more women that may have previously not qualified for a single lumen APBI device therapy.

Thank You

Dr. Benitez. "MammoSite offers a 5-day course of treatment which is truly remarkable. It really broadens the opportunity for women who might otherwise choose to have a breast removed because they could not get to a treatment center every day for a 6-7 week course of radiation treatment."

We'd love to hear from you.

[CONTACT HOLOGIC](#)

We thank you for your support of the [ATEC[®]](#) breast biopsy device and [MammoSite[®]](#) targeted radiation therapy products over the past 10 years, but more importantly for the work you do to provide women with the best possible care when they are faced with a breast cancer diagnosis.

We look forward to many more innovations and successes with you.
